

Primary X grid: 12,350 mm typical; terminal offsets close to overall envelope.

CONCEPT DESIGN | IMAGE-INFERRED | NOT FOR CONSTRUCTION

概念方案 | 图像反推 | 尺寸、结构、机电待核验

Source: two campus AI images + fab1.jpg; official analogues documented in analysis/cad/.

CAD model in mm; site coordinates X east, Y north, Z up. Internal layouts and member sizes are design estimates.

Plans/sections are extracted from actual FreeCAD BRep. Elevations project component outlines; hidden edges omitted per component.

FAB source levels preserved, unverified: foundation -12.2 / B1 -7.2 / F1 +14.8 / F2 +29.6 / RF +41.8 m.

No process certification, structural verification, measured survey, or construction approval is implied.
